Australian Sports Lighting Solutions
PO Box 1738
CARINDALE QLD 4152

Dear Sir/Madam

RECOMMENDATION LETTER

Lockyer Valley Regional Council engaged Australian Sports Lighting Solutions following a design and construct tender process for the supply and installation of LED lighting to the Laidley Recreation Reserve sports fields.

This job involved the retrofit of LED lighting to existing light poles, supply and install of additional poles, excavation, cabling and a custom built lighting control system. The lighting control system allows Council to monitor the electricity use of all clubs and on charge all electricity costs.

Australian Sports Lighting Solutions were very professional and efficient in their communicating, construction scheduling and delivery of the project. We were kept well informed of the project progress, any potential delays and potential disruptions to the grounds or lighting that may impact the sports club users of the facility. This allowed Council staff to keep the sporting clubs informed and maintain strong community engagement.

Australian Sports Lighting Solutions excelled in maintaining a strict construction program, against delays around wet weather and providing solutions to installation problems due to existing faults, that avoided any major cost implications for Council.

Australian Sports Lighting Solutions undertook the Project Management of the entire job and were the direct contact with Council's Superintendent. This included their Project Manager liaising with Energex to upgrade the site transformer for future proofing of the entire site.

I would recommend Australian Sports Lighting Solutions for any form of sports lighting projects and look forward to working with them again on future sports field upgrades in the Lockyer Valley Region.

Yours faithfully

A handwritten signature in black ink, appearing to read "Michael Lisle".
